Introduction

Welcome to KISTI Grid Certificate Authority web site.

KISTI Grid Certificate Authority is operated by the Grid Technology Research Team of KISTI (Korea Institute of Science and Technology Information).

The authority satisfies requirements from APGrid PMA.

Certificate issues by the KISTI Grid CA are compatible with the Globus Toolkit middleware.

The public key cryptography is the basis of grid security architecture.

Certificate Authority(CA) is a mandatory component of public key infrastructure(PKI).

Please read "[Overview of the Grid Security Infrastructure](#)" from Globus site.

NAVER

http://ca.gridcenter.or.kr/request/certificate_request.php

Fill out the subscription form.

2. Interview with a RA with the application form. ([RA contact information](#))

Provide the following information when interview with a RA:

- o the application form
- o proof of identity (work ID card, passport, national ID card, etc.)

3. Keep the PIN number of the application form securely.

The RA should fill the PIN number field in the form.

Fax the form to the number specified in the form.

4. Please send an notification e-mail to ca@gridcenter.or.kr after sending a FAX.

5. KISTI Grid CA staff will respond immediately when we receive your request form.

6. KISTI Grid CA will send an Web Access Client Certificate(WACC) to your e-mail, if everything is okay.

Install this certificate in your web browser to access to the on-line certificate request service web site.

Your PIN number is the password for your WACC.

Follow [this instruction](#) to install the web access certificate(WACC) in your browser.

Step 2. Request a Grid Certificate from KISTI GRID CA

- If you are applying for a user certificate,

Click [User Certificate Request](#)

- If you are applying for a host/service certificate,

Click [Host/Service Certificate Request](#)

Instruction for requesting an User Certificate

By requesting a certificate, you indicate that you accept the [Certificate Policy and Certificate Practice Statement](#) and that you agree to the [Subscriber Obligation](#) specified in the document.

Step 1. Enroll KISTI CA

Before requesting user certificate from KISTI GRID CA, you are required to enroll KISTI GRID CA.

Step 2. On-line Certificate Request

[Click here to request user certificate in the Online Request Service.](#)

If you don't have a WACC in your browser, the access to the web page is not permitted.

Step 3. Download and Import Certificate

Once your certificate is issued, we'll publish it on the website and send out a confirmation to inform your certificate is ready. You can simply download your certificate via the link provided in the e-mail and import it into your browser.

Step 4. Export the Certificate

Refer to the following ppt files to know how to export certificate from the web browser.

User certificate export: [user_cert_export.ppt \(Korean\)](#), [user_cert_export.ppt \(English\)](#)
